FOOD & FARM FORUM

ASAN

ASANONLINE.ORG/FORUM18
WELCOME TO THE 2018 ASAN FOOD & FARM FORUM!

We are thrilled to host you for this exciting weekend of learning, socializing, brainstorming, and good eating! The info below will help you enjoy the weekend to the fullest. Please feel free to ask an ASAN staff person or Forum volunteer at any time, if you have questions.

MEAL TIMES: Meals are served family style, and start and end PROMPTLY at the indicated start/end times. Please help Forum organizers and Camp staff by being on time for meals!

CHILD CARE: ASAN is committed to making our events (and the community created at them) accessible to families, which is why child care is offered free of charge throughout the weekend! Friday until 2pm it will be in Doug Carpenter, and thereafter it will be in the Pre-school, which adjoins the Pottery Studio. Note start/end times for each day, above. Caregivers, you are expected to collect your child(ren) for meals.

COMMON SPACES AND QUIET HOURS: Please take advantage of shared kitchens and common spaces in your lodging areas and around camp. Please share space respectfully, label anything you put in the shared fridges, clean up after yourself, and be aware of your volume level throughout the day. Especially, please respect the 11pm quiet hours. Also note that you are sharing camp not only with other Forum-goers, but with several other events taking place at camp during the weekend.

HIKING TRAILS: Get outside and enjoy this beautiful place! Pick up a trail map at the Camp store.

EVALUATIONS: We greatly appreciate your feedback both on the short session evaluation cards after each session, and on the full-page Forum evaluation included in your registration packet. You may drop off your completed registration form at any time at the registration desk, or give it to any session moderator.

Complete your Forum evaluation to enter to win a free registration to the 2019 Forum in Fairhope AND a $50 gift certificate to Southern Exposure Seed Exchange!

JOIN ASAN: ASAN is a grassroots membership-based organization, and we need your support! If you value the community convened this weekend at the Forum, if you value the support and resources ASAN provides throughout the year, please become a member or renew your membership now! Forms are available at the registration table, or you can do it online at http://asanonline.org/join-asan.

PHOTOGRAPhS: A professional photographer will be taking photos throughout the Forum. Please let her or any ASAN staff member know if you do NOT want your image not to be published on ASAN’s website, social media, and other publications. We will gladly respect your wishes.

“BEEHIVE” ACTIVITIES: The Forum draws on the folk tradition of the “bee,” in which community members come together to do shared work while socializing, learning, and celebrating. During sessions participants are invited to crack pecans, peel luffahs, sort seeds, and do other tasks while also enjoying productive, engaging dialogue. Instructions and materials are located in each meeting space. Participation is 100% optional!
cooperative. At this session we’ll learn and share tools for making group decisions deliberatively, structuring effective meetings, and paying attention to power dynamics. — Lindsey Mullen (Wild Ground), Hall Hall

**TOUR: MCDOWELL FARM/PROGRAMS/PROPERTY AT A GLANCE** — A general tour of the McDowell teaching farm and related facilities with an emphasis on programming and outreach. — Andrew Shea (McDowell Farm School), meet at farm gate (near Teaching Kitchen)
FRIDAY 1:15-2:35

FARM HACKS - BUILDING OUR WAY TO SUSTAINABILITY — Farm equipment can be expensive to buy, and not always effective! We’ll cover building or modifying some farm basics like produce and hand wash stations, dry racks and cold storage. Have something you’ve built or love? Come with your ideas, email us photos, or bring the hack itself! This will be a hands on and interactive session to share ideas on how to make equipment work for your farm. — Billy Mitchell (National Farmers Union) and Darrell McGuire (Deep South Food Alliance), Welcome Center Conference Room

WHEN DO YOU KNOW IF YOU’RE READY FOR WHOLESALE? — This informational panel will help you decide if you’re ready to take the next step for your farm and start selling into wholesale markets. Topics include: wholesale buyer requirements, food safety standards, grading specifications, and more. You’ll also listen to firsthand stories from farmers, buyers, and food hub/brokers to gain aspects into the wholesale produce industry. — Panel: Will Scott (Scott’s Orchards), Demetrius Hooks (Al Hooks Produce), and Andrew Williams (Deep South Food Alliance), moderated by Carey Martin and Natalie Bishnoi (Farm Food Collaborative, Food Bank of North Alabama) Chapel

OFF FARM PROCESSING — USING A PROCESSING PLANT — Panel discussion led by a meat processor with farmers that use processors. Learn about custom, state, and USDA inspected processing. Here about how to work with your processor to ensure you get the best result. Learn about common mistakes and issues, tips for success, how a cut sheet works, and more. Processing is a partnership and is often one of the most expensive parts of raising and selling meat. Getting the relationship right is critical if you are to be successful in your direct or wholesale livestock operation. — Panel: Jock Webb (Federation of Southern Cooperatives) and Martha Skelley (BDA Farms), moderated by Matthew and Jesie Lawrence (Marble Creek Farmstead, Marble City Meats), Randall Commons

MAKE COMPOST NOT WASTE! — Whether you are new or advanced, there are many variations to choose from: vermicomposting? 3-bin system? Bokashi style? We will discuss the how’s and why’s and find out what works best in your system. — Matt Nesbitt, Pottery Studio

GLOBAL GROWERS: INCUBATING MULTI-CULTURAL SUSTAINABLE AGRICULTURE AND A THRIVING LOCAL FOOD ECOSYSTEM — Launched in 2010 as a community farm partnership with American and East African refugees living in metro Atlanta, today Global Growers works to increase the number of food producers who create access to healthy, sustainably-grown food and to prepare farmers to be competitive in their local market place. Integrating cultures within agricultural traditions, increasing farmable land and growers, and building markets are key areas of focus. This session will share some of the challenges and successes of its growth, as well as some “how-

Advancing Sustainable Ag Innovations Through:

SOUTHERN SARE
Sustainable Agriculture Research & Education

Learn more about Grants and Educational Resources at http://www.southernsare.org
to™ strategies for building land access, developing farmer resources, and building a multi-channel farm sales distribution enterprise with a collective of talented and under-resourced farmers. — Susan Pavlin (Taproot, Global Growers), Hall Hall

GROWING WEEDS AS FOOD CROPS: TURN WEEDING INTO PROFITS — Clinical Herbalist Cameron Strouss will cover some stupidly easy to grow weeds that can be sold as food staples. She will cover their uses, some recipes and you will be able to try most of the plants discussed! — Cameron Strouss (Deep Roots Apotheke & Clinic), Phifer Hall

FRIDAY 2:50-4:10

TRADITIONAL ECOLOGICAL KNOWLEDGE APPLIED TO ALABAMA FOODWAYS — Across the world, TEK (traditional ecological knowledge) has become a buzzword. Insight into how indigenous people have used local resources sustainably for long periods is valued more than ever, as modern research often catches up with age-old practices. This presentation features American Indian agricultural practices and foodways specific to Alabama’s ecoregions. Learn how TEK can help us sustainably grow food, improve our diets, and boost self-reliance in modern Alabama. — Sehoy Thrower, Hall Hall

COOPERATIVE FARM MARKETING — Laurie and Will Moore of Moore Farms and Friends, LLC in Woodland, AL have operated their Heritage Family Farm as the hub of a multi-farm cooperative marketing network since 2008. They have experimented with different business models, grower agreements and marketing opportunities over the years and will share their ups and downs and advice for planning this kind of marketing structure. This is a very interactive session so bring your questions! — Laurie Moore (Moore Farms and Friends), Phifer Hall

FARM TRUCK 912: EXPANDING FOOD JUSTICE IN YOUR COMMUNITY — Ever think about starting a farm truck in your community? Farm Truck 912 has been operating in Savannah, GA for three years. Learn about the evolution of Farm Truck 912, including its mission, inception, economics/costs, infrastructure, successes, challenges, and new directions the truck is being taken. — Mark Bowen (Forsyth Farmers Market), Chapel

HYDROPONIC FARMING IN SHIPPING CONTAINERS — This session will discuss the history of alternative agriculture, examples of urban agriculture, and the technology developed by the Shipshape Urban Farms team. The audience will also learn how to build a low cost home hydroponic system. — Dale and Angela Speetjens (Shipshape Urban Farm), Randall Commons

IMPROVING SOIL AND WATER HEALTH, FOR HEALTHY CROPS, FARMS, AND ECOSYSTEMS — This session will open with an outdoor demonstration of soil health using a rainfall simulator, to illustrate how water absorption and retention varies with different farming methods. Participants will learn how ground cover, soil microbes, roots, and other organisms foster soil organic material that is key for a healthy soil. The second portion of the session will focus on water health. As a lapse in stewardship, we have created situations in which the very water that we use to grow healthy foods is contaminated physically, chemically, and biologically. We’ll discuss best management practices for sensible water usage, water remediation (if needed) for healthy and safe crops, and best management for potential on-farm contamination of the water cycle. — Tibor Horvath (USDA-NRCS) and Raymon Shange (Tuskegee University, Carver Integrative Sustainability Center), Welcome Center Conference Room

WOMEN FARMERS ROUNDTABLE — Growing food is more than just a business; it’s work that engages your body, your emotions, your mind and your heart. Bring your full self to this roundtable sharing about the experience of farming as a woman in Alabama; come prepared to talk, listen, and connect. All women are welcome. — Facilitated by Lindsey Mullen (Wild Ground), Daniel Lodge Common Room

PUTTING SOLAR TO WORK ON THE FARM USING PASSIVE SOLAR STRUCTURES AND OFF-GRID SOLAR PHOTOVOLTAIC — Understand the seasonal path of the sun and apply that knowledge to orient and design buildings that stay cool in the summer and heat themselves in the winter. Learn to build stand-alone DC power solar PV systems to run fans, pumps, LED lights and charging ports by using solar PV panels, linear current boosters, charge controllers and batteries. Then if desired, add battery based inverters to power AC loads particularly in larger PV systems. — Daryl Bergquist (Earth Steward Solar Consulting), Greene Street Market Barn

FRIDAY MARKET FAIR

Friday evening’s Market Fair is a social hour, expo, seed swap, mini-job fair, market, and more! Hiring or looking for work in the next year? Bring information to share! Bring saved seeds to share at the Seed Swap hosted by the Sand Mountain Seed Bank. Bring cash and your gift list and peruse the vendors’ tables, just in time for the holidays!
SATURDAY 1:20-2:40PM
FREE THE LAND & FEED THE PEOPLE: COOPERATION JACKSON’S FREEDOM FARMS CO-OP STRUGGLE FOR FOOD-Sovereignty — Cooperation Jackson’s emerging Freedom Farms Cooperative is a part of a plan to transform our relation to the food system in ways that keeps our communities malnourished and dependent—starting from Jackson, MS, and moving out beyond. They see having control of a sustainable food production system as a key component to our communities’ ability to be self-determined, well and thriving. During the course of this session, terms and concepts like Agro-ecology, Afro-ecology, and Just Transition will be discussed. Join co-anchor brandon king of Freedom Farms Coop and see how they are aiming to transform our food systems and how they are connected to a deeper struggle for liberation. — brandon king (Cooperation Jackson), Hall Hall

ON FARM PROCESSING OF POULTRY AND RABBITS — Learn the important lessons about on farm poultry and rabbit processing from food safety, equipment, set up, process flow to regulations, labeling, and where you can and cannot sell your meat. This panel of experienced on farm processors will give good detail and answer your questions. — Panel: Amanda Edwards (EAT South), Jesse Murphy (DSR Farms), and Charles Ritch (Goose Pond Farms), moderated by Matthew and Jesie Lawrence (Marble Creek Farmstead, Marble City Meats), Randall Commons

SATURDAY 2:55-4:15PM
RURAL ORGANIZING FOR SUSTAINABLE COMMUNITIES — Ensure your vote counts and learn how to rally support from your neighbors to effect lasting change. This session led by Hometown Action engages participants in planning effective organizing techniques to improve their geographic community and other networks. — Kathleen Kirkpatrick (Hometown Action), Welcome Center Conference Room

ReGEnEnATivE EAtrhWoRKS: WoRkInG wITh WATEr IN tHe lAnDScApE — If you don’t get the water right as you design your landscape, then you will end up fighting all sorts of problems throughout the lifetime of your farm or homestead. This session will look at a variety of Permaculture tools for repairing the hydrology of a property and creating long-term water security. Concepts covered include sub-soil water storage, ponds, swales, diversion drains, berms and basins, stormwater management, and rainwater storage in tanks and cisterns. — Alan Booker (Eldenbridge Institute), Chapel

PESTs AND WEEDs - hOW Are YOu MANAgInG Them? A FARMerS’ rOurNDAtABLE dIsCUSSION — Was an insect really bug- ging you this year? Are you looking for new ways to manage pests? How ‘bout weeds? This workshop is farmer-to-farmer discussion of successes and challenges for pest and weed management. Share what’s worked for you. Bring your questions and find out what answers other farmers have to offer. — Caylor Roling (EAT South), Teaching Kitchen

Carpentry Life Skills — Tips and tricks as well as a few essential elements of basic carpentry focused on helping your farm infrastructure feel stable and sturdy while getting the job done right. We will cover important design features for elevating your wood game with bat boxes, top bar beehives, and proper fence construction. Perfect for beginners or anyone looking to pick up some tricks of the trade. — Wade Austin (WH Austin Design Build), Blacksmith Shop

What you see is a growing business.

MAKING SPACE FOR YOUTH: YOUTH LEADERSHIP DEVELOPMENT IN FOOD AND AG WORK — It’s critical that we include youth in food and agriculture work -- as inheritors of the food system we are building, but also because they are full of ideas, experiences, and simply put, are dope people! Discuss how we, as adults, can foster an environment that supports young people’s natural capabilities, ideas, experiences, and dopeness, and how we can support the youth we work with. Together, we will explore environmental factors, as well as adult privilege. — Mark Bowen (Forsyth Farmers Market), Randall Commons

INTRODUCTION TO HERBAL TINCTURING — Learn the basics of tincturing wild-harvested or farm grown herbs and mushrooms. We will cover both the folk and scientific method for tincturing. Extractions in alcohol, vinegar, and vegetable glycerine will be discussed along with the benefits of each type of extraction. We will talk about our family favorite tinctures to have on hand in our medicine cabinet as well as possibilities for preserving herb and mushroom crops as tinctures for re-sale. — Joanna Mann (Walden Farmacy), Chapel

GROWING A NEW MARKET WITH MICROGREENS — Want to be a farmer but don’t have the large investment of land and money? Learn how to start a profitable microgreens business with very little of either. We’ll cover benefits of growing microgreens, whether you’re an experienced farmer or have never farmed before. You’ll learn tricks on how to forge relationships with potential buyers, use free marketing to reach your target audience, and more! — Danica Abejon (Sweet City Micros), Hall Hall

FARM TOUR: LIVESTOCK FOCUS — Join McDowell Farm School’s farm manager for an overview of the teaching farm’s livestock systems and management. You’ll meet dairy goats, laying hens, woodland hogs, meat rabbits, and a barn cat. This is a great session for those interested in homesteading, sustainable and humane livestock management, and farm-based education. — Aubrey Gallegos (McDowell Farm School), Meet at farm gate (near Teaching Kitchen)

Big thanks to all our Forum sponsors!

Prizes for your feedback!

Complete your Forum evaluation and earn a chance to WIN a free registration for the 2019 Food & Farm Forum AND a $50 gift certificate to Southern Exposure Seed Exchange!

Turn in your completed Forum evaluation at the registration table and add your name and contact info to the list by the basket to be entered into the drawing.
